Subject Index

Acute leukemia, *see* Leukemia acute
Adenocarcinoma, cytologic detection of, 283-284
Adrenals, Hodgkin's disease of, 208
Africa, cancer in, 289
  multifocal lymphoma in children in, 142
Age, philosophical reflection about, 194
American Cancer Society, education program of, 53
  Scientific Session 1965, 75
    notes on, 214-215
  Scientific Session 1966, 245
Aminopyrene, for Hodgkin's disease, 249
Androgens vs. estrogens, in treatment of breast cancer, 141-142
Angiofibroma, juvenile nasopharyngeal, 195-196

Bamfolin, 234-236
BCNU, for leukemia L-1210, 86
Benzo[a]pyrene, an inhibitor of interferon, 40
Biologist's prestige, 138
Biopsy, *See also* specific site
Biopsy for prostate cancer, 76-78
Biopsy techniques, in diagnosis of prostate cancer, 134-137
Bladder cancer, natural history of, 39
  preliminary irradiation before radical cystectomy for, 287-288
Bone marrow cells, "direct method" study of, in acute leukemia, 10
  "direct squash" technique on, 5
Bone scanning, use of radioisotopes in cancer diagnosis, 103
Bone, Hodgkin's disease of, 204
Bowen's disease, diagnosis of, 223-224
Brain Scanning, use of ^{203}Hg-Chlormerodrin in cancer diagnosis, 99-100
Breast, carcinoma, simple mastectomy for pure mucinous, 196
  disease of, mammography for diagnosis in, 181
  sarcoma of, surgical treatment for, 288
Breast cancer, conservative surgery for, 237
  diagnosis of, by mammography, 291
  5-fluorouracil for, 226-228
  hormone therapy for, 141-142
    in males, 25-28
  and mammography, 184-186, 194
  and pregnancy, 182-183
  study of bilateral primary, 38
  treatment of, 214
Burkitt tumor, 142

Cancer, *See also* specific site
  and chromosomes, 58-74
  and viruses, 183
  associated with leukemia, 93
  complicated by symptoms of spontaneous hypercalcemia, 195
  chromosomal changes in causation of, 60-62
  in Africa, 289
  in Iran, 143
  mortality, of Polish-born immigrants, 193
  prognosis and delay in diagnosis of, 192
  study of incidence of multiple, 288
  radiotherapy for, 128-133
Cancer cells, effect of treatment on, 68-70
Cancer center, state-operated, 54-57
Cancer detection, *See* specific technique
  value of examination for, 242-245
  value of, in preinvasive stage, 244-245
Cancer diagnosis, prognosis and delay in, 144
  by radioisotopic scanning, 98-104
  radioisotopic agents in, 257-269
Cancer hospitals, Memorial Sloan-Kettering Cancer Center, 112-117
Cancer patients,
  and homografts, 40
  and visiting nurse, 189-190
  continuity of
    care for, 165-167
  immunological defect in, 93
CANCER (the journal), 38-39, 93-94, 141-142, 195-196, 237-238, 287-288
Carcinoma in situ, cervical conization or amputation for, 284
  squamous cell, of skin, diagnosis of, 222-223
Cardiovascular system, Hodgkin's disease of, 205-206
Care, medical, a definition of high-quality, 186
  creative ideas for, 232-233
Carotid artery, result of disruption of, 147-151
Carotid body tumors, 146-157
  benign or malignant?, 151-153
  criteria for operability of, 155-156
  symptoms, signs and diagnosis of, 146-147
  technique of operative removal of, 153-155
Castration, for breast cancer, 38
Cells, cancer, effect of treatment on, 68-70
  changes in, revealed by study of dysplasia and carcinoma in situ, 238
  neoplastic, new method for identifying, 238
  Sternberg-Reed, in Hodgkin's disease, 202-203, 209
  tumor, in blood and regional perfusions, 195
Cervical conization, or amputation for carcinoma in situ, 284
Cervix cancer, cervical scrape smears in, 158-160
  estimation of females cytologically examined in 1963 for, 164
  greater incidence among poor of, 289
  patient-obtained vaginal irrigation in, 158-160
  physician-obtained vaginal aspiration in, 158-160
  physician's role in detection of, 236
  prevalence of intra-epithelial, 239
  sex activity and, 278-282
  study of various diagnostic methods for, 158-160
Chemistry, subcellular, comments on, 274
Chemotherapy, and hormones for cancer, 214-215
  in treatment of Hodgkin's disease, 247-249
  in treatment of malignant melanoma, 231
Chloramubucil, for Hodgkin's disease, 248-249
Choriocarcinoma, treatment of, 214-215
Chromosomes and cancer, 58-74
Chromosomes and leukemia, 2-13
Chromosomes, changes in clinical significance of, 70
  deviations in, 2
  deviations in, nature of, 62-68
  difference between count in dysplasia and carcinoma in situ, 238
  glossary of terms pertaining to, 43, 58
  results of various therapies on, 42-43
  viral infections and, 42
Cigarette smoking, *See also* Smoking
  increase of females adopting, 287
  magnitude of hazard of, 187-188
Cigarette tobacco tar, used to produce lung cancer in mice, 143
Classification, histologic, in Hodgkin's disease, 39
  of prostate cancer, 33-35
"Clustering" of childhood leukemia, in Portland, Oregon, 196
Coley's mixed toxins, 139-140
Colon cancer, sigmoidoscopy in detection of, 47-49
  and rectal cancer, early diagnosis, in, 275-277
Communication, non-verbal, between physician and cancer patient, 167
Corticosteroids, for Hodgkin's disease, 249
Creativity, in medical care, 232-233
Cyclophosphamide, for acute leukemia, 88
  for Hodgkin's disease, 249
  in multifocal lymphoma, 142
Cystosarcoma phyllodes, 118-119

Cystosarcoma phyllodes vs. fibroadenoma, 118-119
Cytologic examination, for prostate cancer, 78
Cytology, in detection of bladder cancer, 39
exfoliative, limitations of in oral cancer detection, 82-84
facilities for, reports on national survey of, 161-164

DeMar, Clarence, physiologic status of marathon runner, 193
Deoxyribonucleic acid, *See* DNA
Detection, of bladder cancer, cytologic examination in, 39
of breast cancer, in males, 25-26
of cancer, value of examinations in, 242-245
cytologic, of adenocarcinoma, 283-284
of gastrointestinal cancer, fiberoptics in, 52
of oral cancer, 21-24
of oral cancer, limitations of exfoliative cytology in, 82-84
of lung cancer by X-ray, 18-20
stomach cancer nasogastric tube in, 17
Diagnosis, clinical and laboratory, of prostate cancer, 76-81
of cancer, prognosis and delay in, 144, 192
of cancer, radioisotopic agents in, 257-269
of cancer, by radioisotopic scanning, 98-104
of colon and rectal cancer, 275-277
differential, of melanoma, 120-124
of prostate cancer, 236
biopsy techniques in, 134-137
of skin cancer, 216-225
usefulness of mammography in, 181
DNA, function of, 2
geneticist's remarks on, 282
Drugs, *See* Chemotherapy or specific agent
new, for leukemia, 88
Duodenoscopy, in detection of duodenal cancer, 47

Education, public effects of, 53
about prostate cancer, 194
Education, professional, governmental concern about, 240
Education, and research, conflict between, 29
Endoscopic techniques, clinical application of, 49-50
Endoscopes, fiberoptic, for gastrointestinal endoscopy, 50-51
Endoscopy, gastrointestinal in detection of gastro-enterologic cancer, 46-53
Epidemiological information, on gastrointestinal cancer, 94
Epidemiological study, of lung cancer, 287
Epidemiology, of nevi and melanoma, 120
of skin cancer, 216
Epithelioma, basal cell, diagnosis of, 221-222
Erythroplasia, and oral cancer, 24
Esophageal cancer, esophagoscopy in detection of, 46-47
Examinations, value of, in cancer detection, 242-245

Family, management of, of patient with acute leukemia, 14-17
FEEDBACK, 96
Fibroadenoma vs. cystosarcoma phyllodes, 118-119
Fluids, serous, new method for identifying neoplastic cells in, 238
5-fluorouracil, for disseminated breast cancer, 226-228

Gastric cancer. *See* stomach cancer
Gastroenterologic cancer, role of gastrointestinal endoscopy in, 46-53
Gastrointestinal cancer, epidemiological information on, 94
nasogastric tube in detection of, 17
Gastrointestinal endoscopy, fiberoptic light guides for, 52
Gastrointestinal tract, Hodgkin's disease of, 206-207
Gastroscopy, in detection of stomach cancer, 47
Genitourinary organs, Hodgkin's disease of, 208
Glossary, for chromosomes, 58
G.P.'s role of, in detection of prostate cancer, 29
in management of cancer patient, 29
"Grape cure," 91-92

Health, public, progress in, 213
Hemangiopericytoma, 94
Hodgkin's disease, chemotherapy for, 247-249
the clinical course of, 203
complications in, 210-211
diagnosis of, 211-212
effects of, on marrow and blood, 209-210
fever in, 210
gross pathology of, 201-202
histologic classification and survival in, 39
histopathology of, 202-203
history and etiology of, 200-201
need for early diagnosis in, 90
peculiar clinical features of, 210
pleural effusion in, 247
symposium on, 160
treatment and prognosis of, 246-251
in various organs and systems, 203-210
Homograft rejection, by cancer patients, 40
Hormones, and Chemotherapy for cancer, 214-215
Hormone therapy, for breast cancer, 141-142
Hospitals, specialized, dangers in, 188
Memorial Sloan-Kettering Cancer Center, 112-117
Western Massachusetts, 54-57
Hypercalcemia, spontaneous, symptoms of, 195
Hypoxia, regional, effects of during irradiation, 237

Immunity, abnormal reactions of, in lymphatic leukemia patients, 195
Immunological defect, in cancer patients, 93
Immunologic potentialities of mice, 95
Incidence, of cervix cancer, greater among poor, 289
of prostate cancer, 31-32
Infusion, of inaccessible cancers of pelvis, 196
Interferon, inhibition by benzo-[a]pyrene of, 40
Intrathoracic region, Hodgkin's disease within, 205
Iran, cancer in, 143
Irradiation. *See also* radiation
before radical cystectomy, for bladder cancer, 287-288
and regional hypoxia, 237
Irrigation, of colonic stoma, development and technique of bulb syringe method of, 253-256
a simplified method of, 252-256
Iscador, 191-192

Karyotype, effect of treatment on, 68-70
Keratoacanthomas, diagnosis of, 224-225
Keratoses, premalignant, diagnosis of, 220-221
seborrheic, diagnosis of, 220
Kidney scanning, use of ^{197}Hg-Chloremordrin in cancer diagnosis, 100

Laser radiation, in destruction of malignant tumors, 40
Law, need for anti-quackery, 24
Leukemia, acute myelblastic, chromosomal abnormalities in, 13
associated with cancer, 93
"clustering" of cases of, 94
"case-clustering" in Portland, Oregon, 196
chemotherapeutic treatment of, 214
and chromosomes, 2-13
chronic lymphocytic, difficulties in studying chromosomes in, 6-7
chronic myelocytic, differences in clinical and hematological response in patients with Ph^1 factor having, 6
chronic myelocytic, Ph^1 chromosome in, 5-6
lymphatic, abnormal immune reactions in, 195
recent developments in research on, 287
results of therapy on chromosomes in, 42-43
Leukemia, acute, host phenomena in, 87
karyotypic changes in, 9-13
lymphoblasts cultured from, patient with, 142
management of family of patient with, 14-17

multiplicity of disease forms called, 85
obstacles in the control of, 85-89
pharmacology and, 86
Leukoplakia, diagnosis of, 221
and oral cancer, 21-23
Liver scanning, use of ^{198}Gold, in cancer diagnosis, 100-102
LOOKING AT CANCER, 41-42, 93-94, 141-142, 195-196, 237,238, 287-288
Liver, Hodgkin's disease of, 207
Lung cancer, epidemiological study of, 287
experimentally induced in mice, 143
long-term survival and, 93
and smoking, 215
theories about smokers with, 19-20
X-ray abnormalities in, 18-20
Lung scanning, use of ^{131}Iodine, in cancer diagnosis, 103
Lymph nodes, Hodgkin's disease of, 208-209
Lymphoblasts, cultured from blood of leukemia patient, 142
Lymphoma and leukemia, study of case "clustering," 239
Lymphomas, malignant, 198-213
classification of, 198-199
Lymphoma, multifocal, in African children, 142
methotrexate and cyclophosphamide in treatment of, 142

Males, breast cancer in, 25-28
Malignant lymphomas, 198-213
Mammography, accuracy of, 186
and breast cancer, 38, 184-186, 194
in detection of occult cancer, 185
indications and limitations of, in breast cancer diagnosis, 291
usefulness of, 181
Management, of cancer patient, G.P.'s role in, 29
of locally recurrent melanoma, 272
of patient and family, in cases of acute leukemia, 14-17
Mastectomy, radical, for male breast cancer, 27
simple, for pure mucinous carcinoma of breast, 196
Medical care, creative approach to, 232-233
high-quality, a definition of, 186
Medicine, teamwork in, 90
"third force" in American, 37
Methotrexate, for acute leukemia, 86
Melanoma, amputation for, 272
deaths from, 273
differential diagnosis of, 120-124
factors influencing prognosis after treatment for, 270-272
familial aspects in, 120-121
of lower extremity, 173-174
metastases from uncontrolled, 273-274
possible endocrinal relationships in, 121
problem of recurrence in management of, 270-274
spontaneous regression of, 288
surgical dissection for, 174
of trunk, 171-173
of upper extremity, 171
Melanoma, metastatic, transferred from mother to infant, 238
Melanomas, malignant, and nevi, diagnosis of, 218-220
routes of lymphatic spread of, 168-174
treatment of, 229-231
Memorial Sloan-Kettering Cancer Center, 112-117
6-mercaptopurine, for acute leukemia, 86
Method, new, for identifying neoplastic cells in serous fluids, 238
Methotrexate, intramuscular and intravenous administration of, 96
in multifocal lymphoma, 142
Methylglyoxal-bis-(guanylhydrazone), for acute leukemia, 86, 88
Methylhydrazine for Hodgkin's disease, 249
Mice, immunolgic potentialities of, 95
Mongolism, karyotypic abnormalities in, 43
Mortality, cancer, of Polish-born immigrants, 193
of cigarette smokers, 187
Mucosa, atrophic and hyperplastic, and oral cancer, 21

Nasogastric tube, in detection of gastric cancer, 17
Nasopharynx, cancer of, supervoltage radiotherapy for, 131
NATIONAL CANCER INSTITUTE, VIEWING THE JOURNAL of, 40-41, 95-96, 143-144, 193-194, 239-240, 289-290
Nervous system, Hodgkin's disease of, 206
Nevi, and malignant melanomas, diagnosis of, 218-220
and melanomas, 120-121
Nipple abnormalities, in male breast cancer, 26-27
Nitrogen mustard, for Hodgkin's disease, 247-248
Now Hear This! 29, 90, 194, 236, 277
Nurse, visiting, and cancer patient, 189-190
cost and availability of, 189-190
functions of, 189

Oral cancer, detection of, 21-24
limitations of exfoliative cytology in detection of, 82-84
Orchiectomy compared with stilbestrol therapy, for prostate cancer, 178
Oropharynx, cancer of, supervoltage radiotherapy for, 131

Paget's disease, diagnosis of, 224
Pancreas scanning, use of ^{75}Selabled methionine in cancer diagnosis, 102
Patient, role of, in cancer detection, 242-243
Pelvis, infusion of inaccessible cancer of, 196
Perfusion, regional, and tumor cells in blood, 195
Peritoneum, cancer of, peritoneoscopy in detection of, 49
Ph^1 chromosome, in chronic myelocytic leukemia, 5-6
Phenylbutazone, for Hodgkin's disease, 249
Physician, and postgraduate education, 240
and smoking habits, 289
sole responsibility of, in cancer care, 166-167
and visiting nurse, 190
Physician, role of,
in cancer detection, 243-244
in detection of cervical cancer, 236
in educating public about prostate cancer, 194
in preventing smoking, 277
in terminal cancer care, 108-111
Physiologic status, of marathon runner, 193
Pleural effusion, in Hodgkin's disease, 247
Polonine, 285-286
Pregnancy, and breast cancer, 182-183
and Hodgkin's disease, 210-211
interruption of, in breast cancer, 183
Prognosis, and treatment of prostate cancer, 175-181
Prostate, pathology of benign and malignant, 78
Prostate cancer, biopsy techniques for diagnosis of, 134-137
clinical classification of, 33-35
clinical and laboratory diagnosis of, 76-81
definition of terms concerning, 32-33
early diagnosis of, 236
fibrinolysis tests for, 81
general practioner's role in, 29
incidence of, 31-32
physician's role in educating public about, 194
open perineal biopsy for, 136-137
open transrectal biopsy for, 135
perineal punch biopsy for, 134
prostatic massage and cytological examination in, 78
serum acid phosphatase tests for, 78-80
serum alkaline phosphatase tests for, 80-81
serum lactic dehydrogenase tests for, 81
transrectal biopsy for, 135
transrectal needle biopsy for, 135-136
transurethral biopsy for, 134-135
treatment and prognosis of, 175-181
Prostatectomy, radical, for prostate cancer, 176-177
Public health, progress in, 213
